

Kamehameha Toastmasters Newsletter - March 2020

Ted Talks Talent - Former District 49 Director, DTM, and Accredited Speaker, Bobby Carvalhopracticed his Ted Talks speech at our club meeting on Feb. 11. His presentation about conflict resolution helped us see things from different perspectives. Mahalo, Bobby, for opening our minds In such an entertaining way!

Sweet Socials at Liliha Bakery

Since we cannot eat in Suite 1518, the best alternative for club social gatherings is meeting at a coffee shop. Please join us on **March 24** for our next quarterly gathering at Liliha Bakery (located in Macy's) after each meeting. Be ready for a Table Topic at our gatherings!

Got ideas? Hey! If you've got ideas for stories in our next quarterly newsletter on **March 28**, please send information to **Joy** by **March 24**. Mahalo!

Seek a New Horizon – Soar With Toastmasters

KTM Member Corner

Warren Chee is the most senior member of KTM, joining the organization in 1983. He is a retired math teacher, and has influenced thousands of public school students with his charm and positive attitude throughout his career in the DOE. He joined TM after taking a self-awareness course known as "PSI." This led to serving TM in all offices at the club level and as an Area Governor. He also won the District 49 Evaluation Speech Contest in 2009. This, of course, makes him an excellent resource for tips on improvement. **What are his reflections about the TM experience? -** "TM helps you develop your intuition with the audience, and will help you understand other cultures. Every member wants you to succeed, and you never know how much your message will touch people."

Morgan Groves joined TM in July, 2019. He is a senior at Mid-Pacific Institute, pursuing a Certificate of Arts there, and is the editor of a literary magazine on campus. He joined TM because he enjoyed the gavel club experience, and wanted to develop his skills further. He held the post of president of his gavel club, so who knows where his leadership path will take him? **What's his advice to newcomers to TM?** "It's important to realize that it's okay to fail. You can only get better."
